Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student’s SGP falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short [video about Student Growth Percentiles](#) that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

Student Growth

This table shows the median Student Growth Percentile (mSGP) for both English Language Arts/Literacy (ELA) and Mathematics both overall and for each student group with comparisons to the district and the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

Student Group	ELA: School Median	ELA: District Median	ELA: Statewide Median	ELA: Met Standard (40-59.5)	Math: School Median	Math: District Median	Math: Statewide Median	Math: Met Standard (40-59.5)

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. This table shows the percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. Expected growth is based on the student's initial level of English Language Proficiency during the 2016-17 school year and the number of years the student has been enrolled in the district. This table also shows the school's 2017-18 ESSA accountability target and whether the target was met.

Student absences provide important information about a school’s culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average (“Not Met”) or less than or equal to the state average (“Met”).

Student Disciplinary Removals

The first table shows, by removal type, the number and percentage of students who received disciplinary removals during the school year. Removal types include students receiving one or more in-school suspensions, one or more out-of-school suspensions, one or more suspension of any type, removal to another school or other educational program, expulsion with no further educational services, or arrest. The second table shows the total number of days missed due to out-of-school suspension for all students during the school year.

School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3-11 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3-11. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

School Year	Student to Device Ratio

Per-Pupil Expenditures (District Level)

This table shows the total current expenses for regular and special education students taught within the district's schools. It includes expenditures for instruction, support services, administration, operations and maintenance, extra-curricular activities, and community service. More information about district and charter school spending can be found using districts' [User Friendly Budgets](#), or the NJDOE Finance [District Report Search](#) of the Comprehensive Annual Financial Reports (CAFRs) and Auditor's Management Reports (AMRs). NJDOE will be collecting school-level per-pupil expenditures data for the 2018-19 school year, and that data will be included in future reports.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these [accountability resources](#).

Comprehensive Status

This table shows whether this school is identified as requiring Comprehensive Support and Improvement during the 2019-20 school year and whether it will be eligible to exit comprehensive status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement.

Requires Comprehensive Support during the 2019-20 School Year	Eligible to exit status in January 2021	Eligible to exit status in January 2022
No	n/a	n/a

Targeted Status

This table shows whether one or more student groups in this school has been identified as requiring Targeted Support and Improvement during the 2019-20 school year and whether each student group will be eligible to exit targeted status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Student groups with a summative score that would be in the bottom 5% of schools and student groups that miss annual targets for all indicators for two years in a row are identified as requiring Targeted Support and Improvement. Note: Schools identified as requiring comprehensive support may have student groups identified as needing targeted support below, but the date they are eligible to exit status is based on their comprehensive status.

Accountability Indicator Scores and Summative Rating - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement. This table shows the indicator scores for each indicator included in the accountability system and the weight that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement. For more information about New Jersey’s accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Summary by Student Group - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Targeted Support and Improvement. Any student group where the summative score would be in the bottom 5% of schools is identified for Targeted Support for a Low-Performing Student Group. Any student group that has missed annual targets for all indicators two years in a row is identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups are identified for Targeted Sport will be noted in the Schoolwide row. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the state average for chronic absenteeism based on students enrolled in the grades served by the given school. For more details on accountability targets, see these [accountability resources](#).

 <p>Student Supports and Services:</p>	<p>English Language Learners (ELLs) meet with Lore's ESL teacher daily and receive support through a mainstream model. Students with disabilities are also appropriately mainstreamed and are supported by a building-based Child Study Team. Students who struggle in reading and/or math receive small group support with Early Intervention Specialists; after school and summer support programs are also offered. The school I&RS team meets bi-monthly to ensure the proper supports are in place for all students.</p>
 <p>Student Health and Wellness:</p>	<p>The Ewing Schools have implemented many programs that promote a positive school culture. For the past year, the district has put in place a task force focused on the mental and emotional health of our students. All students participate in physical education (PE) classes; students also engage in recess daily. Lore's PE teachers facilitate other activities including Kids Challenge, Hoops for Heart, and Laps for Life, which encourage fitness and promote philanthropy. Pedometers are used to help students understand the importance of activity. After school clubs such as Fitness Club and Yoga are offered as well. The Breakfast Program is offered to all students.</p>
 <p>Parent and Community Involvement:</p>	<p>The Lore Parent Association (LPA) is very active within the school community. Through events such as the Fall Festival and Spring Carnival, the LPA is able to secure revenue for classroom presentations, school assemblies, and field trips. Community volunteers including STARS (Seniors Teaching and Reinforcing Students) are welcomed into Lore's classrooms and library. Lore students and teachers also collaborate with future teachers from local colleges and universities.</p>

 <p>Facilities:</p>	<p>Lore Elementary School opened its doors in 1963. The original one story building was expanded in 1994, adding six classrooms, art, music, and computer rooms, a nurse's suite, a large library, and double gymnasium with a retractable wall. In 2001, eight additional classrooms, new lavatories, and small group instruction rooms were added; the entire school was refurbished with new windows, exterior walls, and air conditioning as well. Three courtyards serve as outdoor learning areas.</p>
 <p>School Safety:</p>	<p>The Ewing Schools have placed a priority on establishing a learning environment that is safe, secure, positive and harmonious. Two district administrators, Superintendent Michael Nitti and Supervisor David Hauserman, have completed training by the Department of Education, Homeland Security and FEMA to become certified School Safety Specialists. The position of School Security Coordinator was first implemented by the Board in 2013. Five of these adaptive experts on school security protocol and crisis management are based in each of the district's school campuses and assist the administrative team in all matters pertaining to school security. The Ewing Schools and Ewing Township Police share a close relationship which includes cameras/surveillance systems that can be a powerful tool to provide real-time information to law enforcement, fire, and emergency medical service personnel as a crisis or emergency situation is occurring.</p>

Other Information:

Lore School's core curriculum was designed to align with the New Jersey Student Learning Standards. The Language Arts program includes reading/writing workshop, with an emphasis on phonics, comprehension and text-based writing. The math program develops mathematical thinkers through a variety of activities that provide opportunities for students to apply problem-solving strategies. In science, students learn through hands-on experiences, with an emphasis on the Engineering Design Process. The social studies curriculum integrates texts and materials which emphasizes history, geography, and citizenship and prepares students to be active citizens in our democratic society. The art and musical education programs promote aesthetic awareness and creativity. Health and physical education classes stress the importance of proper diet and physical fitness, as well as the hazards of alcohol, drugs, and tobacco. In computers, students are taught digital literacy, internet safety and awareness, and keyboarding. In library special, students are actively involved in reading and project-based learning. Art, vocal and instrumental music stimulate an appreciation of musical and artistic talents. Other services such as speech, occupational and physical therapy, gifted math, Academic Class Enrichment, ESL services, child study team support, and other related special educational programs are offered to broaden each child's horizon and meet individual needs. Responsive Classroom (RC) is a teaching approach in which the social and academic curricula are merged. These strategies help to create a sense of belonging where children truly care about themselves and each other. Through the use of both RC and PBIS, our school and teachers build a strong sense of community where students feel connected, are willing to help, care for others, and actively participate in all activities and events.
