Re: Referendum '18 Phase 1 Summer Facility/Construction Projects

As you know, in October 2018, the Ewing Community passed Referendum '18, a 60-million dollar bond referendum that will create healthier, safer and more modern schools for the students of the community.

Since the successful passage, the Board and administration has been busy planning for the first projects to commence later this spring. We are very excited to see work begin and these improvements be put into place.

That being stated, as anyone who has ever been through a home improvement or building project is well aware, there will be inconveniences and challenges for our staff and school community. There will also be unforeseen obstacles in the future. We wanted to state beforehand that we truly appreciate the cooperation and efforts of everyone involved as we work together to make our schools better for our students.

Below is an overview of projects slated to begin in the next two months. Please note the following:

- Fisher Middle School will be largely unaffected by building projects during the summer of 2019. Consequently, ALL district summer programs will be run out of FMS in 2019, this includes ESY, Ready Freddy and Safety Town.
- Impacted summer staff from other buildings will be staffed at FMS to assist with the administration of our summer programs and will be provided a designated workplace while their buildings are off-line.
- Custodial staff being displaced will be moved around the district as necessary in order to ensure that all buildings are open, clean and ready the start of school in September.
- Project time-line dates below are from Bid Specifications. They will be updated once final contracts have been executed.
- **Special Note to Antheil and Lore Staff:** Antheil and Lore will have a significant number of classrooms being renovated. These classrooms will need to have supplies and equipment labeled and/or boxed-up. Impacted teachers will be notified by the administration. It is recommended that any personal items be taken home. A district-hired moving company will place boxed items into storage containers until renovations are complete. What staff does not identify or box-up will be packed up by district custodial staff and/or moving company.

***This work will commence on Thursday, June 20<sup>th</sup>. Please make sure your classroom is labeled and/or boxed up by the end of the day on June 19<sup>th</sup>.***
