EHS Senior Spotlight January 2024: Meet Selina Daywah

I am honored to receive Senior Spotlight for January 2024!

Do you have a New Year's resolution? My New Year's resolution is to work on myself. I feel as though everyone always has room for improvement, but sometimes it's hard to focus on yourself when you're distracted by other things. This coming year I want to promise myself that I will always make time for myself, even when I feel like I have none. Self-growth is very important to me.

What are you most looking forward to in the year 2024? I am looking forward to graduation in June. This is because it will be a big accomplishment. It symbolizes the fact that I was able to make it through thirteen years of schooling! Some of those years were easy and some were hard. Nevertheless, I managed to push through and finish. Not only am I excited to graduate, but I am also looking forward to starting college in September 2024. I am excited to learn new things and have new experiences.

What is your favorite subject? My favorite subject is English. This is because I get to use my creativity more while reading and writing versus other subjects. While reading novels, I can interpret the information differently than someone else. Yet, this doesn't necessarily mean either of us is incorrect, but it allows us to draw our own conclusions. The same goes for writing. Nothing is set in stone.

Who is your favorite teacher and why? My favorite teacher would have to be Mrs. Hewlett. She shows a passion for what she teaches and that really inspired me. Mrs. Hewlett teaches accounting, and the way she talked about the career and how she taught the subject sparked an interest for me. This resulted in me finding my major, which is accounting.

What is your favorite quote or book? My favorite quote would be "You have gotta lose your mind, just to find your peace of mind. You have gotta trust the signs, everything will turn out fine so? Why aren't you smiling?" This quote comes from Jhene Aiko, one of my favorite singers. In this quote, she was trying to say that even if you lose yourself, light always comes out in the end, so you should keep smiling, because everything will work out. This speaks volumes to me because some people do forget to smile. Not everyone always sees the light at the end of the tunnel. However, this quote reminds me that there will always be one.
