Immediate Release

July 26, 2022

Ewing BOE Accepts Superintendent Nitti's Resignation; Successor Superintendent Search to Commence

The Board of Education accepted the resignation due to retirement of Superintendent Michael Nitti, effective November 21st, 2022.

Nitti has been the Superintendent of the Ewing Schools since 2009, and has been with the school district since 2004. He was approved by the Bristol Township School District in Pennsylvania as its next superintendent on July 21st. Nitti will remain with the district until November 21st and assist with the transition and the planning for an effective opening of the 2022-23 school year.

"The Board and Ewing Schools Community are greatly appreciative of Mr. Nitti's many years of dedicated service," Board President Anthony Messina stated. "Mr. Nitti leaves us as the longest tenured superintendent in Ewing Schools history since our initial superintendent, and as we like to say around here, 'Once a Blue Devil- Always a Blue Devil'."

The Board of Education is moving quickly and decisively with an approach to have a new superintendent in place on or around Superintendent Nitti's date of departure. During the meeting, the Board approved the hiring of veteran educator and experienced superintendent search consultant Thomas Gialanella to assist, advise, and counsel the Board during this process. Gialanella has led many successful superintendent searches throughout the state.

"Hiring a superintendent may be the most important responsibility of a Board of Education," Mr. Messina stated. "We are excited to work with Mr. Gialanella and move aggressively to bring on an outstanding successor to Mr. Nitti."

The Board of Education will release a Superintendent posting/advertisement this week that will be widely disseminated. The district is also putting together a superintendent search survey to give the opportunity for the school community to share thoughts and ideas regarding the search. Mr. Gialanella will also visit Ewing to meet with stakeholders and host a community forum regarding the process and desired characteristics of the next school district leader. A "Superintendent Search Update" page will also be created on the district website, and community members are encouraged to refer to it for information.
